MAC SYSTEMS CONSULTANTS is an elite independent consulting group dedicated to providing professional support services to the Macintosh™ community. From an initial focus on Macintosh™ operating system & applications training, we have expanded our involvement to include general consulting & systems configuration. We specialize in the following areas of service:

- SYSTEMS SETUP & CONFIGURATION
- SOFTWARE CONFLICT RESOLUTION
- HARD DISK OPTIMIZATION & BACKUP
- INDIVIDUALIZED MAC™ TRAINING
- CONSULTING & NEEDS ANALYSIS
- APPLE TALK NETWORK MANAGEMENT
- CUSTOM DATABASE & ACCOUNTING

RATES - Our basic rates are contingent on the type of support provided & billed by 1/4 hour increments, with 1/2 hour minimum. Travel time is not incurred for local on-site work of more than 3 hours duration. Travel time is incurred for service calls of less than 3 hours duration, as well as for non-local service calls. Phone consultation is also available as needed at the basic rate. Rate schedule is available upon request.

FLEXIBILITY - A typical project will generally include the following phases: 1) Initial Consultation, 2) Pre-purchase or Design Analysis, & 3) Purchase &/or Implementation (consisting frequently of several phases). Upon the completion of each phase, a proposal will be submitted detailing the next phase for client approval, giving you crucial control over the project's progress. Whether our services are utilized simply for the consultation & design phases or the entire process, we will work to complement your existing human resources & thereby realize optimal savings for your company!

SAVINGS - We endeavor to minimize cost to you the client, by maintaining low overhead & providing off-site work whenever feasible. Software design off-site will generally achieve a significant time savings, & in all joint ventures including those involving proprietary information, a non-disclosure policy is strictly maintained. Our rates are the most competitive in the industry, surpassing even the superstores in value!

CUSTOMIZATION - There is a wide range of potential vendors to choose from in implementing the appropriate solution for your business or personal computing needs. We are committed to providing an objective & unbiased recommendation on the integrated systems with the price-performance ratio most suited to your specific situation. We look forward to doing business with you, as always upholding client satisfaction as our primary goal!
